Hints & Tips

Tangle Teezer is excellent for detangling both wet and dry hair, don't be tentative, Tangle Teezer is like no other brush - speedy and painless detangling achieved by using a firmer pressure. You can use Tangle Teezer from roots and mid-lengths straight through to ends.

Use Tangle Teezer when consulting your client. They will see it in your hand and when they feel it on the scalp they will be astounded!

Use it to detangle hair after shampooing rather than snagging with your cutting comb - as hairdressers we sometimes forget it hurts!

Use Tangle Teezer at the backwash to take conditioner through. Try to keep the bristles close to the head for comfort rather than dragging the hair up and away from the client.

Always use Tangle Teezer after any Colour Procedure as it will give your client comfort and will add gloss to your colour due to the Tangle Teezers teeth working so closely to the cuticle.

Tangle Teezers are incredible with hair extensions. It will glide straight over bonds without pulling and tugging, giving the wearer that much needed Scalp Massage. Its also great for maintaining wigs, weaves and wefts.

Tangle Teezers is amazing on even the tightest of afro and curly hair. Again be firm and keep the teeth of the brush close to the scalp for best results.

No more Tears! Tangle Teezers is fantastic for children of all ages. When you use on Mums, mention their kids!

Tangle Teezers can be used when blow drying short hair, and is great for creating texture with haircuts. Its is also a great smoothing tool when a smooth style has been finished. Gently glide it over the top of the hair and it will add even more shine to precision cuts.

Testimonials

"The Tangle Teezer is truly show stopping! It whizzes through my daughter's coarse, tightly curled, long red hair. It's a miracle, Shaun p is a genius. Tangle Teezer is the strongest link!"

Anne Robinson TV Personality

"At last a detangling gadget that really works. No tugging or tearing, so far less split ends and broken hair."

Nadine Baggott

"This Morning" Beauty Consultant & Hello! Magazine Beauty Editor

"It's amazing; my three year old daughter won't let me use anything else on her hair. Thank you for making my mornings easier."

Sophie Rayworth, BBC News Presenter

The Hair Science Behind Tangle Teezer

Tangle Teezer is the first of a new generation of de-tangling hairbrushes! Upon picking up Tangle Teezer you will notice the teeth aren't like that of an ordinary brush which is where the hair genius comes in. The unique configuration of specifically designed teeth flex just the right amount to detangle and help smooth the hair's cuticle which in turn protects the inner cortex from damage.
