How To Scan A QR Code

Here's how:

Open the camera app.

Select the rear-facing camera in Photo or Camera mode.

Centre the QR code that you want to scan on the screen and hold your phone steady for a couple of seconds.

Tap the notification that pops up to open the link. (You will need to be connected to the internet to do this.)

If your phone doesn't have this feature you may need to download an app, search 'QR Code Scanner'
