### **Directions**

Shampoo and Condition as normal and then towel dry hair. Dispense a small amount into palm. Rub palms together and from end to root distribute evenly through hair. Hair can now be heat styled or left to dry naturally. Blow dry or flat iron for optimum results.

### **3-Day Straight**

Shampoo and condition as normal, work in SILK from ends to root. Blow-dry hair. Once dry, add some more SILK, then use flat irons to straighten the hair. This heat process will activate key ingredients and through the cationic technology, hair will remain frizz-free and straight for 3-days. SILK continues to internally revitalise the hair.

### **Blow Dry Tool**

Whether you have frizzy hair or not, by using Kebelo SILK you'll still experience major benefits. Blow-drying time will be reduced plus your hair is left weightless, smooth and unbelievable shiny. It is the ultimate blow-drying companion.

### **Mid Day Booster**

If you have been out and about and your hair is feeling dull, simply use some SILK to boost its shine and keep it in tip-top condition. SILK is perfect to use on holidays as it also protects the hair from the elements during the day. You can use it as a super-boost on dry or wet hair.
